Outcomes

At the conclusion of this course, you will be able to

- understand the elements of a digital conversion that will impact student achievement;
- visualize effective 1:1 instruction;
- identify the key changes you need to make during a digital conversion;
- identify opportunities to improve the digital conversion process in your district; and
- apply the concepts of a digital conversion in a final assignment.

Course Assignment and Preparation Checklist

.....

	Session Preparation <i>Complete <u>before</u> attending the session.</i>	Session Assignments <i>Complete <u>after</u> attending the session.</i>
1: Introduction to Digital Conversion	Bring your copy of <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Download or print your Participant Workbook.	Read the Foreword and Prologue in <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Complete the Student Achievement activity in your Participant Workbook. Answer Discussion Board questions, and respond to two other participants' posts.
2: The Moral Imperative	Read the Foreword and Prologue in <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Complete the Student Achievement activity in your Participant Workbook. Answer Discussion Board questions, and respond to two other participants' posts.	Read Chapter 3, Chapter 4, and pages 149–159 of <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experience in your Participant Workbook. Answer Discussion Board questions, and respond to two other participants' posts.
3: Culture of Caring	Read Chapter 3, Chapter 4, and pages 149–159 of <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experience in your Participant Workbook. Answer Discussion Board questions, and respond to two other participants' posts.	Read Chapter 5 and Chapter 7 in <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Complete the Culture of Caring Strategies activity in your Participant Workbook. Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experience in your Participant Workbook. Answer the Discussion Board questions, and respond to two other participants' posts.

Course Assignment and Preparation Checklist

	Session Preparation <i>Complete <u>before</u> attending the session.</i>	Session Assignments <i>Complete <u>after</u> attending the session.</i>
4: Data-Driven Decision Making	Read Chapter 5 and Chapter 7 in <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Complete the Culture of Caring Strategies activity in your Participant Workbook. Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experience in your Participant Workbook. Answer the Discussion Board questions, and respond to two other participants' posts.	Read Chapter 1 and Chapter 6 in <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Watch the video, "Breaking Down the Text Reading Lesson." Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experience in your Participant Workbook. Answer the Discussion Board questions, and respond to two other participants' posts.
5: Impact on Teaching and Learning	Preview content in session and course by reviewing the Participant Workbook. Read Chapters 1 and 6 in <i>Every Child, Every Day: A Digital Conversion Model for Student Achievement</i>. Watch the video, "Breaking Down the Text Reading Lesson." Answer Discussion Board questions, and respond to two other participants' posts.	Finish the Final Assignment, and submit it to the facilitator through the dropbox on the online platform.

Session 1: Introduction to Digital Conversion

Session 1 Objectives

By the end of Session 1, you will

- state the intended outcomes for the course; and
- define *digital conversion*.

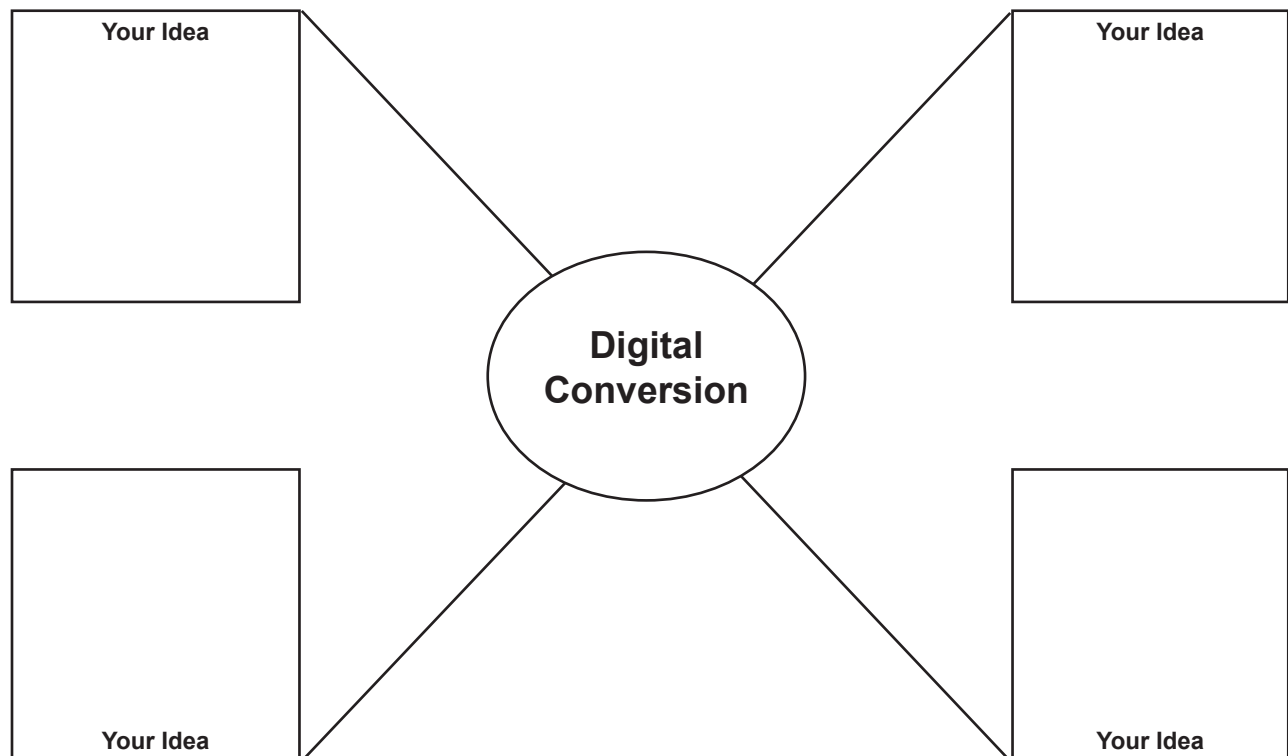

Content Focus

Digital Conversion

Activity: Defining *Digital Conversion*

Think about the following question: What does *digital conversion* mean to you?

Jot down your ideas on the whiteboard. Use this space to note a few of the ideas that define *digital conversion* for you. While watching the video, “A Vision for Personalized & Connected Learning,” add any new ideas to your web.

Mooreville Graded School District's Model for Digital Conversion

Activity: Compare and Contrast Chat Room

Use the chart below to compare your classroom, school, or district to Mooreville Graded School District. You can approximate percentages.

Mooreville Graded School District	Your Classroom, School, or District
5,600 students	
Title 1 district	
72% Caucasian	
18% African American	
8% Hispanic	
2% other	
12% Special Education	
7% English learners	
40% free and reduced lunch	

(Edwards 2014, xii)

1. How is your classroom, school, or district similar to Mooreville Graded School District?

[Media: Insert 5 lines]

2. What common needs do the students in your classroom, school, or district have to those in Mooreville Graded School District?

[Media: Insert 5 lines]

Project Red: Nine Key Implementation Factors

Use the Notes column below to record important ideas about the nine key implementation factors provided in the Project RED study.

Project RED Key Implementation Factor	Notes	Mooresville Graded School District's Critical Success Factor
Intervention classes		
Change management leadership by principal		
Online collaboration		
Core subjects		
Online formative assessments		
Student-computer ratio		
Virtual field trips		
Search engines		
Principal training		

(Greaves et al. 2010, 12)

Activity: Critical Success Factor Sort Breakout

Turn to page 7 in *Every Child, Every Day: A Digital Conversion Model for Student Achievement* (Edwards 2014). In your groups, discuss Mooresville School District's critical success factors, and sort them according to the Project RED nine key implementation factors. You can sort Critical Success Factors among multiple categories. Use the space in the third column above to sort and record the critical success factors.

Activity: Implementing the Critical Success Factors

Turn to page 7 in *Every Child, Every Day: A Digital Conversion Model for Student Achievement* (Edwards 2014). In your groups, choose one of the critical success factors from Mooresville Graded School District, and discuss various ways of implementing the success factor in the classroom, school, or district.

Critical Success Factor:
Ways to Implement the Critical Success Factor:

Section 1: Introduction to Digital Conversion

Activity: Reflection

Reflection Sheet

Check your role.

☐

Teacher
(classroom teacher,
specialist, or
assistant)

☐

School-Based Leader
(Principal,
Assistant Principal, or
Instructional Coach)

☐

District Leader
(Superintendent,
Curriculum Supervisor,
Central Office Staff)

Think about each of the nine key implementation factors identified in the Project RED study (Greaves et al. 2010) through your lens as a teacher, school-based leader, or district leader. Identify the current status and potential next steps for attending to each of the key implementation factors. A few examples have been provided in italics below.

Key Implementation Factor	Current Status	Planned Next Steps or Potential Steps to Think About
Intervention classes	<i>Principal: Our specialists meet weekly to plan opportunities for our English language learners (or ELLs) to use technology in the classroom.</i>	<i>District Administrator: We have established a committee to evaluate our intervention programs. Our curriculum group is writing lesson plans to include technology.</i>
Change management leadership by principal	<i>Teacher: My principal led the development of a school vision and mission statement for our digital conversion initiative. As a classroom teacher, I then had the students write their own mission statements that related to the school mission.</i>	<i>Teacher: I will have the students write their own mission statements that are related to the school mission.</i>
Online collaboration		
Core subjects		
Online formative assessments	<i>Teacher: Right now, our assessments are all paper and pencil. I am curious to see what online assessments we can use to assess our curriculum.</i>	

(continued on next page)

Section 1: Introduction to Digital Conversion

Key Implementation Factor	Current Status	Planned Next Steps or Potential Steps to Think About
Student-computer ratio		
Virtual field trips		
Search engines		
Principal training		

Which of the nine key implementation factors are areas of strength for your school or district?

[Media: Insert 3 lines]

Which of the nine key implementation factors are areas that need more attention? Thinking about your specific role as a teacher, school-based leader, district leader, or parent/community representative, what specific steps might you take to begin to address the areas of need?

[Media: Insert 6 lines]

Review

Activity Chat—Digital Conversion

Reflect on this session, and answer the following questions.

1. What is *digital conversion*?

[Media: Insert 5 lines]

2. How do the nine key implementation factors influence teaching and learning?

[Media: Insert 5 lines]

Prepare for the Next Session

Complete the following assignments before Session 2:

- Complete the Student Achievement activity in your Participant Workbook.

Activity: Student Achievement

Review the data given in Figures 1.2 and 1.3 of *Every Child, Every Day: A Digital Conversion Model for Student Achievement*. Answer the questions below.

1. What subgroups reflect gaps in student achievement in your classroom, school, or district?

[Media: Insert 5 lines]

Section 1: Introduction to Digital Conversion

2. What strategies are you currently employing in an effort to close these achievement gaps?

[Media: Insert 5 lines]

- Read the Foreword and the Prologue in *Every Child, Every Day: A Digital Conversion Model for Student Achievement* by Mark A. Edwards.
- Answer Discussion Board Questions, and respond to two other participants' posts.

Session 2: The Moral Imperative

Session 2 Objectives

By the end of Session 2, you will

- define *moral imperative*; and
- explain the relationship between high expectations and the moral imperative for digital conversion.

Learn

What is moral imperative?

Activity: Moral Imperative

Read the quote below, and respond to the question using the space provided.

“Something that must happen because it is the right thing”

—Macmillan Publishers Limited (2013)

My moral imperative for becoming involved in this school or district is . . . ?

[MEDIA: Please add 4 lines]

Student Needs

Activity: Diversity Challenge

Think about some of the students in your class, school, or district who experience a gap in achievement. In the space below, list some of the possible reasons that these students are challenging to teach or some of the needs that they might have that makes it challenging to teach them.

It is challenging to teach them because they are . . .	It is challenging to teach them because they need . . .

Pause and Reflect

Answer the following questions:

How does your moral imperative for your role in your school and district support the moral imperative for digital conversion?

[MEDIA: Please add 4 lines]

How does incorporating a variety of approaches, techniques, and teaching strategies support student learning?

[MEDIA: Please add 4 lines]

Beliefs and Expectations

Podcast: Creating a Growth Mindset

Listen to the podcast interview with Dr. Carol Dweck, author of *Mindset: The New Psychology of Success*. Respond to the following questions as you listen:

What is the relationship between growth mindsets and a digital conversion initiative?

[MEDIA: Please add 3 lines]

In what ways can you support a growth mindset for your students?

[MEDIA: Please add 3 lines]

Activity: Reading: Pages 19–21 of *Every Child, Every Day: A Digital Conversion Model for Student Achievement*

Passage	Notes
	• about the passage; and • about how digital tools and high expectations worked together to ensure students' success in the passage.

Activity: Reflect and Apply

Revisit the Diversity Challenge activity on page 21 of this Participant Workbook, and respond to the questions below.

How can digital tools help you meet the needs of your challenging students in the Diversity Challenge activity? Provide specific examples for the example students listed above.

[MEDIA: Please add 5 lines]

How might digital conversion change your expectations for what your students can accomplish or achieve?

[MEDIA: Please add 5 lines]

In Practice

Content Knowledge

Video: Impact of Digital Conversion on Student Achievement

Activity: Video Reflection

Write down three or four points from the video that resonated with you. Then, jot down ideas on how you can use digital conversion and each point in your own work.

Point or Idea	How to Use Digital Conversion and Each Point or Idea

Apply

In the Classroom

Video: Dr. Mark Edwards Interview

Assignment

Respond to the following question:

How will you convey your moral imperative and high expectations to others?

[Media: Insert 5 lines]

Discussion Board

Respond to the following Session 2 Discussion Board questions:

- In what ways will a digital conversion change the way teaching is done in your classroom, school, or district?
- What strategies are you going to use to get started with making a digital conversion?

Prepare for the Next Session

Complete the following assignments before Session 3:

- Read Chapter 3, Chapter 4, and pages 149–159 of *Every Child, Every Day: A Digital Conversion Model for Student Achievement*.
- Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experiences below.

[Media: Insert 5 lines]

- Answer Discussion Board questions, and respond to two other participants' posts.

Session 3: Culture of Caring

Session 3 Objectives

By the end of Session 3, you will

- describe the conditions necessary for a pervasive culture of caring; and
- describe the strategies teachers and leaders use to foster a culture of caring.

Background

What benefits to digital conversion and having a growth mindset do you hear in the video?

[Media: Insert 3 lines]

Learn

Culture and Success

Activity: Visualizing a Digital Conversion Initiative

Use the space below to jot down what a digital conversion initiative looks like, feels like, or sounds like when it is successful or when a school or district struggles with it. You will complete the second row at the end of this session.

A Successful Digital Conversion Initiative	A Struggling Digital Conversion Initiative
	
Culture of caring strategies that might contribute to these conditions include the following: <i>Opportunities are provided by school leaders for teams to plan with one another.</i>	Culture of caring strategies that might help to overcome these issues include the following: <i>The principal models the expectation by using digital tools.</i>

Activity : Culture of Caring Strategies

Reflect on this session. Use the space in the Visualizing a Digital Conversion Initiative activity above to identify specific culture of caring strategies that might directly lead to what a successful digital conversion looks like, feels like, and sounds like. In the second column, identify specific culture of caring strategies that might help schools or districts specifically address some of the issues that they have when they do not experience success. An example has been provided in italics.

Ubiquitous Leadership

Activity: Video Reflection

After watching the two videos, answer the following questions:

In what ways can teachers be leaders in their schools? List specific leadership actions.

[Media: Please add 5 lines]

In what ways might leaders at different levels work together?

[Media: Please add 5 lines]

How might leaders at different levels engage others in participatory decision making?

[Media: Please add 5 lines]

Pause and Reflect

Answer the following questions:

How does a culture of caring support student learning?

[MEDIA: Please add 4 lines]

What are some factors that can create a culture of caring?

[MEDIA: Please add 4 lines]

Culture of Caring and Teachers

Activity: Video Reflection

After watching the video, answer the following questions:

How might district and school members celebrate new and veteran teachers who embrace change?

[MEDIA: Please add 5 lines]

How can district and school members encourage teachers to plan and support one another?

[MEDIA: Please add 5 lines]

Section 3: Culture of Caring

What strategies can district and school members use to support teachers who are resistant to change?

[MEDIA: Please add 5 lines]

“All In” Culture

Activity: Video Reflection

After watching the video, answer the following questions.

In what ways might support staff and other school personnel be engaged and recognized as part of your digital conversion initiative?

[MEDIA: Please add 5 lines]

How will parents know that their children’s teachers care about them and have high expectations for their learning?

[MEDIA: Please add 5 lines]

In what ways might parents and community members contribute to a school or district’s culture of caring?

[MEDIA: Please add 5 lines]

In Practice

Content Knowledge

Video: Creating a Connection with Students

Activity: Video Reflection

After watching the video, answer the following questions:

What are some ways that teachers and administrators can show that they are committed to every student?

[MEDIA: Please add 5 lines]

What strategies can teachers and administrators use to communicate to students that they care about them?

[MEDIA: Please add 5 lines]

Apply

In the Classroom

Video: Vern Jones: Positive Student-Student Relationships

Assignment

Respond to the following question:

How can you use or adjust the strategies in this video in your own classroom, school, or district?

[Media: Insert 4 lines]

Discussion Board

Respond to the following Session 3 Discussion questions:

- In what ways can you improve the culture of caring in your classroom, school, or district?
- What challenges do you foresee to creating a culture of caring, and how will you work to overcome them?

Prepare for the Next Session

Complete the following assignments before Session 4:

- Read Chapter 5 and Chapter 7 in *Every Child, Every Day: A Digital Conversion Model for Student Achievement*. Complete the Culture of Caring Strategies activity.
- Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experiences below.

[Media: Insert 5 lines]

- Answer Discussion Board questions, and respond to two other participants' posts.

Session 4: Data-Driven Decision Making

Session 4 Objectives

By the end of Session 4, you will

- describe effective data-analysis activities; and
- describe how data analysis impacts student achievement.

Learn

InfoDynamo: A Daily Date with Data

Activity: Daily Date with Data

After watching the video titled, “Data-Driven Decision Making with Technology,” answer the following questions:

In what ways does a daily date with data improve student achievement?

[MEDIA: Please add 3 lines]

How does Mooresville Graded School District use data in ways that are similar to or different from your classroom, school, or district?

[MEDIA: Please add 3 lines]

How might ubiquitous access and sharing of data communicate the message, “I care about you” to students?

[MEDIA: Please add 3 lines]

Section 4: Data-Driven Decision Making

Complete the table by noting the various types of assessments that you use throughout the school year.

	Formative Assessments	Summative Assessments
Beginning of a unit		
During class		
End of class		
Intermittently throughout the unit		
End of the unit		
End of the cycle		
Other		

Keys to Data-Driven Decision Making

Activity: Keys to Data-Driven Decision Making

Place a check in the column that indicates the degree to which you implement these data-analysis activities in your classroom, school, or district.

Keys to Data-Driven Decision Making	Always	Sometimes	Never
Collection and analysis of student data, using end of quarter tests and other common formative assessments			
Updating department, grade-level, and individual teacher plans to reflect changes in data			
Teacher review of daily data to adjust instructional planning for individuals and groups			
Involvement of colleagues, grade level and department chairs, and principals			
Monitoring online assessments by teachers and students to map toward the next objective or assignment			
Individualized assessments within adaptive software that tailor assignments to student needs			
Rubrics to record performance scores for project-based learning, including critical-thinking and problem-solving skills			

Activity: Scenario Reading

Think about the following scenarios:

- During a team or department meeting, a list of the names of your underperforming ELLs, along with their test scores, is displayed and your name is attached to the list.
- During a staff meeting, the principal displays test results by grade level, team, or by teacher.
- A coach, school-based leader, or district leader walks into your classroom during a lesson and asks you how you know or will know which students got it and which students did not.
- A district superintendent displays a list of schools, with the names of principals attached, that did not meet Adequate Yearly Progress (AYP) last year at a school board meeting.

What would need to happen for these scenarios to be positive experiences rather than negative ones?

[MEDIA: Please add 3 lines]

Pause and Reflect

Answer the following questions:

How does data analysis impact student achievement?

[MEDIA: Please add 4 lines]

How does the instructional data available to you change with digital conversion?

[MEDIA: Please add 4 lines]

Data-Driven Decision Making with Digital Tools and Resources

Activity: Benefits of Online Assessments and Resources

Add any additional benefits to online assessment tools and resources to the table below.

Benefits of Online Assessments and Resources
- They provide precise and immediate information. - They provide precise intervention. - Students can monitor their progress and take responsibility for their learning. - Teachers can look at reports by content area, objective, individual students, or subgroups instantly. - Parents have access to their children's information on a regular basis.

In Practice

Content Knowledge

Video: Assessment Changes with Digital Conversion

Activity: Video Reflection

After watching the video, answer the following questions.

How can you increase and adjust your use of data to improve student learning?

[MEDIA: Please add 5 lines]

What are some points from the video that stand out to you?

[MEDIA: Please add 5 lines]

Apply

In the Classroom

Video: Data Analysis Meeting

Assignment

Respond to the following questions:

On what aspects of the data did the teachers focus?

[Media: Insert 4 lines]

How did the teachers use the data analysis to create a plan to meet students' needs?

[Media: Insert 4 lines]

Discussion Board

Respond to the following Session 4 Discussion questions:

- How will digital conversion change your current assessment and data-analysis practices?
- How can you encourage students to engage in data analysis to improve their learning?

Prepare for the Next Session

Complete the following assignments before Session 5:

- Read Chapter 1 and Chapter 6 in *Every Child, Every Day: A Digital Conversion Model for Student Achievement*.
- Watch the video, "Breaking Down the Text Reading Lesson."
- Apply the knowledge gained from this session to your role in the school or district before completing the next session. Record your experiences below.

[Media: Insert 5 lines]

- Answer Discussion Board questions, and respond to two other participants' posts.

Session 5: Impact on Teaching and Learning

Session 5 Objectives

By the end of Session 5, you will

- state several key drivers of student engagement; and
- describe how digital conversion changes the role of the teacher in the classroom.

Content Focus

Student Engagement

Activity: Student Engagement Breakout Group

Padlet wall link provided by your facilitator: _____

In your group, use the Padlet wall at the link provided by your facilitator to create a web that encompasses what you would expect to see when students are engaged in learning. Double-click anywhere on the wall to begin typing ideas. Some questions you may want to consider are:

- What are students doing?
- What are teachers doing?
- Who else is involved in the engagement? How?

You group should be prepared to share your web with the whole group. Use the space below to take notes of your group's web and discussion.

[Media: make this space fillable in interactive pdf]

Activity: Changing Learning Chat

Use the space provided to respond to the following question.

In what ways does successful digital conversion impact student engagement?

[Media: Insert 4 lines]

Teaching in a Digital Learning Environment

Whiteboard Activity: Changes in Teaching

Use the following space to jot down a few ideas from the activity that resonated with you.

In what ways does a successful digital conversion impact student achievement?

[Media: Insert 5 lines]

Video: Examining Point of View Using Technology

Use the space below to cite evidence of effective 1:1 classroom practices.

Effective 1:1 Classroom Practices	Evidence
What drivers of student engagement did this example show?	
How did digital tools and resources take student engagement to a new level?	
In what ways did the teacher facilitate learning? What strategies did he or she use?	
What did you notice about how the teacher used space in the classroom?	
What opportunities were there for collaboration?	

Activity: Planning to Incorporate

Reflect on how to use the information that you have learned in this course in your role within your school and district. What can you do to make lessons more relevant, personalized, collaborative, and connected for students?

[Media: Insert 6 lines]

Digital Conversion Communication Plan: Final Assignment Option 1

This activity will help you start planning for the communication between you and various other groups you will have to communicate with when your school or district begins to implement a digital conversion. Use the information and strategies that you have learned during this course to guide you as you create this Final Assignment. You may also find the appendices in *Every Child, Every Day: A Digital Conversion Model for Student Achievement* to be helpful in this assignment.

Who do you expect to communicate with in regards to changing practices in a digital conversion?

[Media: Insert 5 lines]

For each group, use the table on the next page to create a communication plan that details what your interactions with that group will look like. You can make copies of the table as needed.

Appendix A

Group: _____

What information do you need to provide to this group?	Provide details about any meetings that you plan with this group (what the meeting will look like, what information will you convey in the meeting, when will the meeting take place, where will the meeting take place, and so on). You may attach additional pages if needed.
What type of communication will you have with this group? How often?	
What are your expectations for this group (for example, what will be your expectations regarding e-mail communications)?	

Appendix B

Digital Conversion Lesson Plans: Final Assignment Option 2

This activity will help you start integrating technology and the strategies and techniques from this course into your lessons. Use the strategies that you have learned during this course to guide you as you create or adjust two lesson plans to make the lessons more relevant, personalized, collaborative, and connected for your students.

Plan two lessons that you will teach in the near future as you complete the information below.

Lesson Topic: _____

Standards:

Objectives:

Behavioral Indicators:

List the observable behaviors that you expect students to exhibit during the lesson. For example: Given a story problem, students will model the situation using geometric software.

Materials and Technology Needed:

Procedures:

Indicate what you will do to engage students in the activity. Be specific about what questions you will ask, how you will introduce the task, and so on.

Evaluation:

How will you evaluate students' learning?

In what ways is this lesson relevant, personalized, collaborative, and connected to your students?

[Media: Insert 5 lines]

Appendix C

Digital Conversion Communication Plan: Final Assignment Option 1 Rubric

The participant filled in each area of the assignment with appropriate information.	Yes ☐ No ☐	Comments:
The participant provided details about what information he or she will provide to each group.	Yes ☐ No ☐	Comments:
The participant provided details about the type of communication he or she will have with the group and how often.	Yes ☐ No ☐	Comments:
The participant provided details about his or her expectations for communication with the group.	Yes ☐ No ☐	Comments:
The participant provided details about any meetings that he or she was planning with the group.	Yes ☐ No ☐	Comments:

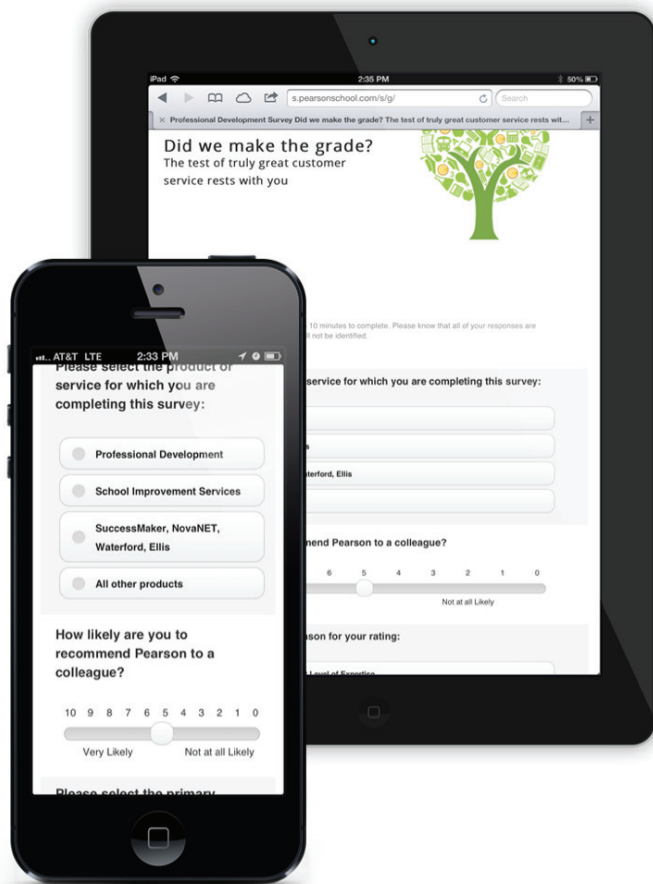

Additional Comments:

Appendix D

Digital Conversion Lesson Plans: Final Assignment Option 2 Rubric

The participant filled in each area of the assignment with appropriate information.	Yes ☐ No ☐	Comments:
The lesson plan includes a topic, standards, objectives, indicators, and materials.	Yes ☐ No ☐	Comments:
The lesson plan includes details on the procedure of the activity.	Yes ☐ No ☐	Comments:
The lesson plan includes details about how the teacher will evaluate the students' learning.	Yes ☐ No ☐	Comments:
The participant described how the lesson was relevant, personalized, collaborative, and connected to the students.	Yes ☐ No ☐	Comments:
